

**IF YOU THINK
THERE'S A SMARTER HUB THAN ACCESS/ONE,
GET OUT OF TOWN.**

ON US.

Seeing is believing.

So when we say the Access/One by Ungermann-Bass gives you more manageability and broader connectivity than any other smart hub, we want you to see for yourself.

After all, many claims have been made about the connectivity of certain hubs.

Now it's time to set the record straight. That's why Ungermann-Bass is the only networking company that will fly you to one of its worldwide demonstration centers—and it's on us. Then you can see in person how the Access/One smart

hub offers more options than any other network platform. More media. More protocols.

More vendor connectivity: IBM, Digital, Tandem, Sun, Apple, H-P and more.

MORE OPTIONS MEAN MORE FLEXIBILITY FOR YOU.

You tell us what you need to network. Give us a list of your mainframes, synchronous devices, asynchronous terminals, workstations, PCs, Macs. Any protocol, any setup. Ethernet. Token Ring. FDDI, broadband, baseband, the works.

Then, based on those facts, we can show you exactly how Access/One solves your individual needs better than any other network hub. You'll learn how Access/One ties your world together with simple, low-cost twisted-pair wiring. It's a demonstration you'll never forget.

MODULAR DESIGN AND SCALABILITY MAKE IT EASY TO CUSTOMIZE YOUR NETWORK.

Access/One's flexibility comes from its smart design. It offers you a completely modular system with scalable configurations from basic connectivity to complex internetworking. You just plug

the appropriate module into the system enclosure and you're set. And

Ungermann-Bass can provide the modules you need for just about anything you want on your network.

With its standards-based architecture, Access/One offers you tremendous advantages. It fits your existing network and gives you plenty of room to grow

In fact, you'll be prepared for any changes that need to be made in the future. And you

have the security of knowing that your investment is protected.

The bottom line is, Only Ungermann-Bass can show you today the migration path everyone else is just talking about.

THE SMARTEST TRIP YOU CAN TAKE.

Investing in a network is a big decision. You have to make sure it can answer the demands of different users. It needs to fit the existing environment. But it should also be able to adapt to an environment you can't predict far into the future. And it should do it all seamlessly and economically.

The only way to be sure you're getting what you need is with a hands-on demonstration. That's why it's worth a trip to test the network hub that can do it all better than anything else.

Especially when the trip is on us.

Just fill out the enclosed card and return it, or call us toll-free today to let us know you're interested.

We'll rush you an application kit to get you on your way. Call: **1-800-873-6381.**
